

Attn: Amber Hobbs

A NEIGHBOR'S PERSPECTIVE ON TODD & ALENA STANDLEY'S BUSINESS PLAN

1. We border the Standley ranch on their east side and have been neighbors for 44 years.
2. After studying Todd and Alena's business plan, we are very impressed with several factors:
  - a. The plan is very well researched and addresses a critical challenge in rural Montana. We raise the livestock, but it is difficult to consume our own product because of a shortage of processing plants.
  - b. It is prudent to scale into the business as demand and finances dictate.
  - c. All concerns we might have had were addressed in the e-mail response from Amber Hobbs on October 21, although we think there may be a typo on the application where it discusses quantity of solid waste.
3. Finally, we are very happy to see a young, energetic couple start a much needed enterprise which will enhance our local community and the rural economy in central MT. It is the right idea at the right time. We wish them every success.

TO WHOM IT MAY CONCERN

My family and I are planning on building a small scale butcher facility on our property. We will be butchering beef, hogs and lambs. We are taking proactive steps to operate this business in a manner to avoid any negative impacts to our community with regard to traffic, noise, water, and odor. We see this as an opportunity to bring local business to the area and fill a need in the livestock industry. If you have any questions or would like to discuss the plans further, please don't hesitate to contact us. I would like to ask for your trust and support in this new endeavor. We really appreciate your signature below as a sign of your support for this project.

Sincerely,

Todd and Alena Standley
